He occupied a cot on the train and attended by physician, nurses and several of his sons went to the city last Wednesday. He had suffered from boyhood with white swelling in the left leg, resulting from a fall. The amputation revealed the fact that the bone in leg had become diseased. The body was brought to his home on Saturday evening. Dr. Clare was in his 63rd year and was of German parentage and was born in New York State. He graduated from the Seminary here in the early seventies and served congregations at Chambersburg and in Monroe county, and in 1892 became pastor of the Abbottstown charge, comprising then the Lutheran churches at Abbottstown, New Oxford and East Berlin. He received his degree of Doctor of Divinity from Gettysburg College. He was a scholar, a man of bright mind and a good speaker. He was a master of the science of music, vocal and instrumental, and possessed a rich tenor voice. For several years he had been Chairman of the Ministerial Board of the West Pennsylvania Synod and was Chairman of the delegation from this Synod to the General Synod at its last session. ## ARRESTS FOR COAL STEALING

## RAILROAD MEN SAY COAL STEALING IS A BUSINESS HERE

## Four Persons Arrested and Held for Trial at the April Court.

The extent to which coal stealing is indulged in by alleged residents of this place is truly remarkable according to the information of the local representatives of the two railroads. They have no hesitation in saying that the coal stealing is simply awful, that people whom no one would dream of being guilty of larceny, who would never appropriate a penny belonging to a neighbor, yet look upon it as a joke or as permissible behavior to extract all the coal they can from cars that are en route through this place. Why it is said that the coal is not only taken by the bag full but hauled away by the wagon and that there are those in this place so successful in the extracting that they have coal for sale in small quantities to the less fortunate. It is estimated that coal cars remaining over night in this place will loose as much as a ton or two. More surprising than all else is the assertion made as to the number engaged in this business.

The coal stealing culminated last week in the arrest of four persons: George Slonaker, James Carter, Joseph Elliott and Nellie Anderson. They were given a hearing before Justice J. L. Hill on Monday afternoon. Four employees of the W. M. railroad testified to alleged acts of those who had been arrested. Justice Hill held the four for trial at April Court. The first two gave bail for their appearance at that Court and Joseph Elliott and Nellie Anderson are boarding with Sheriff Colestock.

We heard a man say the other morning that the abbreviation for February

—Feb.—means Freeze every body, and that man looked frozen in his viser. It was apparent that he needed the kind of warmth that stays, the warmth that reaches from head to foot, all over the body. We could have told him from personal knowledge that Hood's Sarsaparilla gives permanent warmth, it invigorates the blood and speeds it along through artery and vein, and really fits men and women, boys and girls, to enjoy cold weather and resist the attacks of disease. It gives the right kind of warmth, stimulates and strengthens at the same time, and its benefits are lasting. There may be a suggestion in this for you.

## REMEDY FOR WRITER'S CRAMP.

## DAYS OF DIZZINESS.

## Various Ways of Overcoming Common Inconvenience.

What an annoyance it is to spread all your writing materials out and settle down to a whole afternoon of letter writing, only to find after half an hour that you have the writer's cramp. After the first letter or two you give it up in despair, and the friends who are waiting for letters are disappointed.

This writer's cramp is a serious matter to people whose work requires that they use a pen very much, while for the unaccustomed writer who takes an afternoon off now and then to catch up with her correspondence it is to say the least, very discouraging. The trouble is more than muscular in this kind of cramp. Very often a low nervous condition will cause it. Then one should take it as a warning that the system is run down and needs general toning up. Very often, however, the trouble is in the way you hold your pen.

Children now in school are not likely to be troubled with writer's cramp, because they are being taught to hold the pen lightly and make all the movements from the arm instead of the hand. The old-fashioned method which most of us learned, of holding the pen between the thumb and forefinger is also very likely to encourage a cramp. The muscles become tense and hard, until finally they contract so much that all control over them is lost. The pen should be held between the two first fingers, well up toward the joint. The trouble may often be relieved by putting the hand and wrist into the hottest water one can stand.

## LITERARY MECCA OF ENGLAND.

## Famous Writers Who Lived in Twickenham—Tennyson's House.

The place to which the lover of English literature will sooner or later turn his steps is Twickenham. No other small town can boast of having been the residence and beloved abode of so many famous literary lights.

With it are associated the immortal names of Pope, Horace Walpole, Swift, Gay, Lady Wortley Montagu, Gibbon, Boswell, Johnson, Tennyson and Dickens. Surely this is enough to make any place doubly immortal! Twickenham was well nicknamed by Horace Walpole the Bala, or Tivoli, of England; for it has truly been to London what Bala was to ancient Rome—indeed, in a far higher degree.

The big red brick house in Montpelier road where Alfred Tennyson lived for so many years of his earlier married life was the one in which many of his earlier poems were written. Here his son Lionel, the second Lord Tennyson, was born, and there the author of the "Idyls" entertained many of his literary friends and acquaintances.

That house should surely be sacred to all lovers of English literature which saw the dawn of "In Memoriam;" which witnessed those delightful gatherings graced by Tennyson, Hallam and kindred spirits within its walls.

## The Lost Customer.

"It was a rainy day," said the bookseller, "and the wet shoes and dripping umbrellas of customers had made the floor quite wet and slippery just inside the store door. All our clerks happened to be in the back part of the place when the door opened and a large and very stout woman hurried in. Just as the door swung shut behind her she slipped and fell flat upon the floor. Before any of us could reach her she picked herself up with surprising quickness for a woman of her size, gave a stony stare all around the room, and then without uttering a word, turned around, opened the door and walked out in the most dignified manner. None of us has ever seen the woman since, and I suppose her pride will prevent her from ever coming into the store where her first appearance was so mortifying."

## Economical Commodore.

It was the custom in the days of our old navy for the men to bring to the mast all worn-out articles which were to be inspected, handed in, and exchanged for new. The drummer had applied for so many drum-heads that the commodore felt sure he was being imposed upon, and one day set himself to watch while the band was playing. As one rattling martial air followed another, his anger increased perceptibly, until he burst forth in uncontrollable rage: "There now, confound you! I see why you use so many drum-heads! Don't drum in the middle of it all the time. Drum all over that drum, I tell you!"

## Umbrella an Elephant.

"There's no luck in finding an umbrella," remarked the nervous-looking man. "You can't carry it when you do find one. At least I can't. I found this one the other day, and ever since then when I'm on the car I imagine that every one on the car is looking at me and getting ready to ask me about my umbrella. If I ever find another one I'll hire some boy to lose it again for me."

Advice to a Young Man.

"What do you say to a young lady at a dance?" queried the youth who was about to attend his first ball.

"Oh," replied the society man, "talk to her about her beauty."

"But suppose she hasn't any?" said the youth.

"In that case," rejoined the a. m., "talk to her about the ugliness of the other girls present."

Doan's Kidney Pills cure all kidney ills.

Here is proof in Gettysburg.

Miss Katie Crouse, living at 135 West St., Gettysburg, Pa., says: "I suffered from kidney disease for years and was unable to find anything that would give me even temporary relief. My kidneys did not act properly, and gave me much trouble. The complaint was growing worse daily when friend advised me to try Doan's Kidney Pills and I procured a box at the People's drug store. In the following simple prescription, it is taken to tone the stage of Bright's disease.

Fluid Extract Benign, one-half ounce; Compound Kordon, one ounce; Compound Syrup o. Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so.

He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache as it has a peculiar action on the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. ## ELECTRIC CORN POPPER HERE.

Very Different from the Old Time Kind You Held Over a Fire.

The old fashioned wire corn popper in which you pop corn over a glowing fire, is familiar enough, but a novelty is the electric corn popper; in which you pop corn by electricity.

The electric corn popper consists of an aluminum basin with flaring sides to which is fitted a dome shaped cover of wire gauze; this cover to keep the corn from popping out as it pops, and also to enable one to see how the popping is getting on. To the under side of the basin is permanently attached a resistance coil in which heat is produced when the electric current is turned on.

In one side of the popper are two plug holes. Into these holes you insert the two plugs at one end of a flexible electric wire, the other end of which you screw into the nearest and most convenient electric light socket.

As everybody knows, in popping corn in a wire popper you have to keep the popper moving as you hold it over the fire to keep the corn from burning; to permit keeping it agitated to the same end the electric popper, which is used on a stand or table, is mounted on wheels.

## COUNTRY'S NEEDS SET FORTH.

Wall Street Journal Advocates Return to Old Conditions.

The following editorial from the Wall Street Journal is somewhat remarkable, appearing in a purely financial paper, and is certainly worthy of serious consideration:

"What America needs is a revival of piety, the kind mother and father used to have—piety that counted it good business to stop for daily family prayer before breakfast, right in the middle of harvest; that quit field work a half hour early Thursday night so as to get the chores done and go to prayer meeting; that borrowed money to pay the preacher's salary and prayed fervently in secret for the salvation of the rich man who looked with scorn on such unbusinesslike behavior. That's what we need now to clean this country of the filth of graft, and of greed, petty and big; of worship of fine horses and big lands and high office and grand social functions. What is this thing we are worshiping but a vain repetition of what decayed nations fell down and worshiped just before their light went out? Read the history of Rome in decay and you will find luxury there that could lay a big dollar over our little doughnut that looks so large to us. Great wealth never made a nation substantial nor honorable. There is nothing but earth that looks good that is so dangerous for a man or nation to handle as quick, easy, big money. If you do resist its deadly influences the chances are that it will get your son. It takes greater and finer heroism to dare to be poor in America than to capture a battery in Manchuria."

At times when you don't feel just right, when you have a bad stomach, take something right away that will assist digestion; not something that will stimulate for a time but something that will positively do the very work that the stomach performs under ordinary and normal conditions, something that will make the food digest. To do this you must take a natural digestant like Kodol For Dyspepsia. Kodol is a scientific preparation of vegetable acids with natural digestants and contains the same juices found in a healthy stomach. Each dose will digest more than 3,000 grains of good food. It is sure to afford prompt relief; it digests what you eat and is pleasant to take. Sold by People's Drug Store.

## Rails Headed Toward Gettysburg.

Nine miles of the Washington, Frederick and Gettysburg Railroad, between Frederick and Lewistown, Md., have been completed and the first passenger coach was run over the road last week.

It is said that the original survey of this road from Lewistown to Thurmont will be abandoned and that a new survey from Lewistown to Rocky Ridge will be substituted, the Emmitsburg railroad being intersected at latter point and that its tracks will be used for 7 miles to Emmitsburg, and that will require only ten miles to reach Gettysburg.

It was expected to open on the trolley between York and Hanover on the Lincoln anniversary but it was found impossible to do this, so the opening day has been fixed for Washington's Birthday next Saturday. A trial trip in a new trolley car was however made

by officials of the company last week and it is said the road is one of the best and most substantially built in the York county system of trolleys. It has always looked that this system would move a line on toward Gettysburg and it is only 16 miles away now.

the installation exercises a banquet followed at Evans Cafe.

## Accidents.

Boreas Deatrick of Hunterstown, went to his stable one day last week and found his horse had pulled down the rack of his stall and his foot was caught in the wreck. In trying to get the foot of horse free the animal jerked and Mr. Deatrick was knocked down. His son Harry G. Deatrick found him as he was about to regain consciousness. He is on the mend now.

Mrs. Edward Hockensmith of near Mt. Rock was seized with a falling fit during the absence of her husband and fell in the snow in her yard, and remained there for several hours until found by some neighbors and was almost frozen, but her physician was able to bring her about all right, though suffering somewhat from the effects of the exposure.

E. E. Dittenhafer, of New Oxford, while lighting the lamps of that town, fell on an icy pavement and struck the ladder in his fall injuring his back. A. J. Gulden, of the same place, slipped and fell, spraining his left ankle and has been confined to his home.
